

GUILDFORD WEST

Stunningly designed and renovated for modern living and entertaining yet retaining its federation characteristics, this impeccable cottage embraces a generous layout that maximises space and extends indoors to out. Rustic floorboards prevail throughout the friendly floorplan which includes 3 bedrooms, main with built in robe and air conditioning, impressive timber kitchen with dining area and a large air conditioned lounge room. French doors allow access to the beautiful wrap around verandah which flows directly to the rear yard with double garage ensuring the largest parties are easily catered for. The quiet, corner block position, convenient location to all local amenities and overall charm only add to the appeal of this home and it's unfortunate that only one lucky buyer will enjoy it whilst everyone else will be left broken hearted.
